

## Environmental Policy Statement

Kane International fully recognises its environmental responsibilities and will proactively seek to improve the company's environmental performance. As a minimum, Kane will ensure compliance with all relevant environmental legislation and associated Regulations.

Senior Management are committed to providing the leadership and resources necessary to deliver on these aims and will represent environmental matters at the highest level of the business. It is recognised that by improving environmental performance, the company is not only acting in a socially responsible manner but will bring economic savings to both the business and the customer.

To improve environmental performance, Kane International will take all reasonable measures to;

- Maintain a documented Environmental Management System based on the requirements of ISO 14001:2015. (Third Party Accredited).
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Minimise the energy and water use within our buildings
- Reduce the amount of waste we produce as a result of our operations.
- Increase the re-use and recycling of waste by managing our waste proactively.
- Use recyclable and renewable materials in place of virgin products wherever practicable.
- Take a lifecycle approach when assessing the impact of our products, services and operations on the environment.
- Seek appropriate professional advice when required to do so.
- Use this policy to provide a framework for setting environmental objectives

This policy will be reviewed annually - or when procedural, legislative or best practice changes occur - to ensure it remains relevant to the nature and scale of the business.
